Wool care guide

Wool keeps its shape and warmth for years if it is washed gently and dried flat.

Washing

1. Turn the garment inside out.
2. Hand wash at 30 degrees with wool detergent.
3. Press the water out; do not wring.

Drying

Dry flat on a towel, away from radiators and direct sun.

Washing temperatures

Highest washing temperature by fibre

Fibre	Temperature
Merino wool	30 degrees
Lambswool	30 degrees
Cotton	40 degrees
